

# About us

HWB is a large independent firm of Chartered Accountants offering the depth of resource and specialist skills of a national practice. But as an independent, we also genuinely understand the challenges our clients face - and the value of quality, proactive business advice.

Our aim is to get close to you, dedicating an HWB director to become an objective and trusted member of your team. This close working relationship brings an understanding of your business and, importantly, what you want it to deliver.

We then work with you to achieve both your short and long-term objectives - improve profitability, grow the business, secure finance, reduce tax liability or work towards your exit.

Our services are always tailored to respond directly to these objectives and include:

- accounting
- audit
- business strategy and planning
- company secretarial
- corporate finance
- expense control
- IT consultancy
- outsourcing
- payroll
- specialist tax advice.

Our team works across the board with every type of organisation, from the entrepreneurial start-up to the major corporate and every size and sector in-between. We have particularly strong expertise in relation to:

- owner-managed businesses
- recruitment
- hotel and leisure
- property development and construction
- healthcare
- Independent Financial Advisers (IFAs)
- solicitors.

A fresh approach to business
